F: box "\f(CWFile\fP" ht 40 wid 112 with .nw at 75,704
line from D2.n to Mbuffer.Buffer.s
requests a window
.CW new ,
.CW xerox
or
.CW reshape ,
it changes the mouse cursor from the usual arrow to a box with
a small arrow.
In this state, the mouse may be used to indicate an arbitrary rectangle by
pressing button 3 at one corner and releasing it at the opposite corner.
More conveniently,
button 3 may simply be clicked,
whereupon
